

# Solace Certified Integration Associate Certification Exam

## Overview

The **Solace Certified Integration Associate (SCIA)** exam is intended for individuals who have knowledge of Event Driven Architecture (EDA), Event Driven Integration (EDInt), and are able to apply that knowledge to event-enable an organization's integration infrastructure with Solace Platform.

The **Solace Certified Event Driven Architecture Practitioner (SCEDAP)** exam is a prerequisite to this exam.

This exam validates a candidate's ability to:

- Understand concepts and difference between EDA and EDInt
- Understand the various integration patterns
- Add event driven capabilities to existing/legacy enterprise resources
- Understand event driven iPaaS basics
- Understand principles of micro-integrations
- Know and identify tooling that can support event-driven integration

## Exam Details

### Format

- **Questions:**
  - Multiple-choice: Has one correct response and one or more incorrect responses
  - Multiple response: May have multiple correct responses
- **Type:** Open-book, non-proctored
- **Length:** 35 questions
- **Duration:** 120 mins (2 hours)
- **Pass score:** 70%
- **Language:** English

You are required to attempt all questions and there is no penalty for guessing.

All questions are based on the courses and topics provided under the Exam Preparation section below in this guide.

### Results and Re-attempt Options

Results of the exam are delivered immediately upon submission, along with a certificate of achievement.

You will have a maximum of **3 re-attempts** with a wait period of **3-days** between re-attempts. Use this waiting period to review your course materials and other resources. After the 3rd attempt you can contact [academy@solace.com](mailto:academy@solace.com) for further instructions.

## Cost

The cost of the certification path (exam + training courses) is: **\$500 USD**

The certification path is included in the Individual Digital-Only Learning Subscription plan for: **\$500 USD**

**NOTE:** it is highly recommended to purchase the Learning Subscription on Solace Academy, which gives you unlimited access to all certification exams and training courses for 1 year. All purchases can be made through a credit card or AliPay.

## Validity

The certification expires two years from the date you pass the exam. To extend the certification validity after this date you can retake the same exam.

## Taking the Exam

The exam is administered via [Solace Academy](#) and requires access to a computer and internet connection. You **cannot** save the exam and resume later. Navigating away from the browser tab or exiting the exam before you submit the exam can cause your responses to be reset and count towards your attempt.

---

***Exams should not be a collaborative effort. Posting or sharing of exam questions/answers in any forum (e.g. Community) or internet is strictly prohibited and may result in disqualification.***

---

## Exam Preparations

This exam is part of a Certification path which includes one or more training courses to help prepare you for the exam.

### Certification Path

The certification path consists of the following courses and exams:

1. Foundations of Event Driven Architecture
2. Solace Certified Event Driven Architecture Practitioner Exam (SCEDAP)
3. Event-Driven Integration with Solace Platform
4. Solace Certified Integration Associate Exam (SCIA)

**NOTE:** The **Solace Certified Event Driven Architecture Practitioner (SCEDAP)** exam is a prerequisite to this exam and is included in the learning path. This exam will be locked until all prerequisites are completed. If you have already completed the prerequisite exam separately, then Solace Academy will automatically unlock this exam in the learning path.

## Certification Topics

The exam validates the following topics, with percentage of questions asked for each major section.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |     |
